

Welcome to the apartments 😊.

Basic information about what you can do as a family in this area can be found at: <https://family-fun.si/en/> I believe you will enjoy and build strong family ties. **Spend some quality time with your family 😊.**

Šumik Waterfall and Black Lake.

It goes without saying that Pohorje is a pre-Alpine hill, which lies in northeastern Slovenia and is mostly covered with coniferous forest. That's why I suggest that you explore Pohorje with vast forest lands, the Virgin Forest Šumik, waterfalls and peat bogs with lakes, the largest butterfly in Europe and other valuable animal species. This day should be dedicated to exploring the waters on Pohorje and we chose to visit the Black Lake and the Šumik Waterfall

BREAKFAST

Prepare a delicious breakfast in the morning. In nice weather you can enjoy it on the terrace overlooking Pohorje.

Since most children love to eat outdoor, I suggest putting some of the food you eat most often in the mountains in your backpack, e.g. a couple of buns, pâté, spreads, some sausages, water or juice, etc. There is nothing like sitting on a bench by the lake and having everything you like in your backpack. Kids love it.

LET'S HIT THE ROAD - [Black Lake](#)

Slowly - but really slowly (children like it when we are not in a hurry), go to Pohorje by car.

The first stop will be the Black Lake (the starting point is the parking lot next to the [Home on Osankarica](#)). Drive from the apartments to the roundabout on Smolnik, where you take the third exit and drive along the Lobnica River to Pohorje. I suggest you stop somewhere along the Lobnica River (the valley of Lobnica is beautiful) and admire it. The journey to the starting point will take you about 50 minutes. Stop there, read the information board and head to the Black Lake (around 25 minute walk).

FROM BLACK LAKE TO [ŠUMIK WATERFALL](#)

When you see the Black Lake, return to the starting point and drive to the starting point for the Šumik Waterfall, i.e. "[Pri Bajgotu](#)". There you will find some tables and benches. You can relax while children are exploring nature. Let them soak their feet in water.

Now it's time to open your backpack.

**Family
Fun**

POHORJE • APARTMAJI

Follow the signs to the Šumik Waterfall (Attention! The route is difficult in some places, so watch out for children). The walk to the Šumik Waterfall will take you about 35 minutes. Along the way, observe the greatness of the Šumik Forest Reserve. When you reach the waterfall, descend to it and admire the power of nature. Let the cold powdery snow refresh you.

Return to the starting point.

Back to the valley - home (I am using the word home because I want you to feel at home in the apartments)

To return to the valley you can use the route you took to get here or you can choose another route. On the way home, let the children in the car tell you what they have seen and learned today.

TIME FOR A SPORTS PARK or PLAYING AT HOME

When you return home, I recommend that you go with the children (and all the equipment: balls, skateboards, scooters, etc.) to [Sports Park Ruše](#), where you definitely won't be bored. Neither will be your children. If you are afraid that the children will not be tired enough and will not fall asleep, I suggest you go to the pool (located in the Sports Park).

I assure you they will fall into a deep sleep.

Another option, of course, is to stay home and play board games.

FOR PARENTS

When they fall asleep....Yeah, hard day. So it's time for you two. Open a bottle of wine, have a sit on the terrace and smile at each other.

Have a wonderful day, Sabina

Note: We recommend hiking shoes.

Of course, this is your time and maybe something else will inspire you on: <https://family-fun.si/en/>
